In the event the Committee fails to approve or disapprove such plans and specifications submitted and received, within 30 days of written receipt thereof, approval shall be deemed to have been given. However, approval of plans and specifications not in conformity with the covenants and restrictions contained herein shall not constitute a waiver unless specifically stated as a waiver in writing.

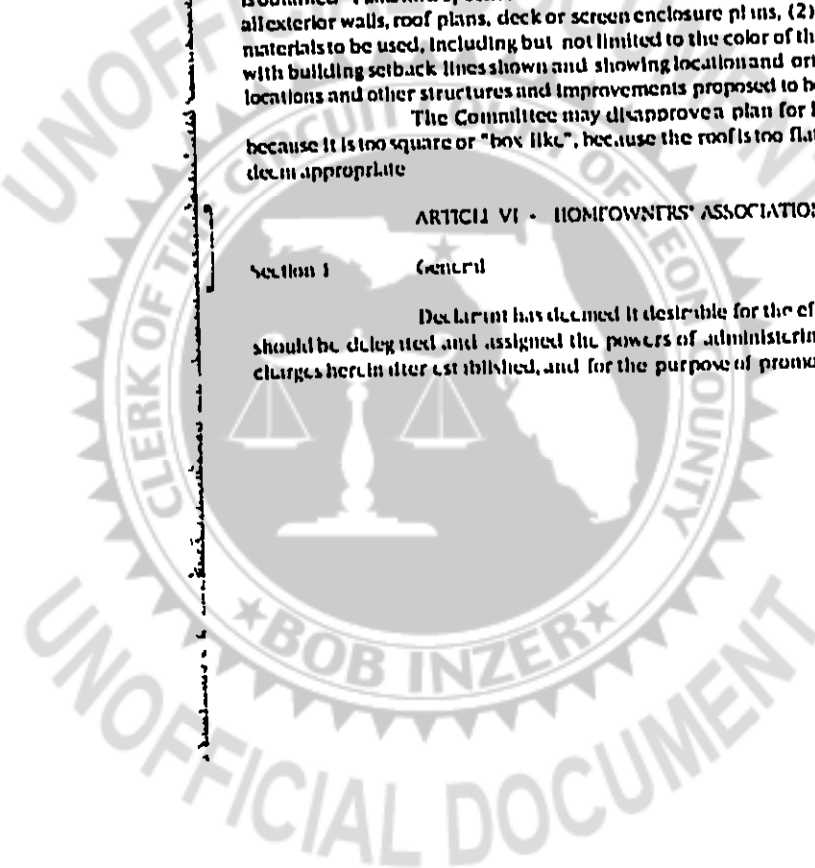

Section 4 Plans and Specifications. Plans and specifications submitted to the Committee shall be a duplicate of those upon which the building permit is obtained. Plans and specifications shall consist of not less than the following: (1) floor plan of all floors, foundation plans, section details, elevation drawings of all exterior walls, roof plans, deck or screen enclosure plans, (2) comprehensive color scheme designating the precise color of all exterior surfaces and exterior materials to be used, including but not limited to the color of the trim, gutters, windows, shutters, decks, porches and all other exposed surfaces, (3) a site plan with building setback lines shown and showing location and orientation of all buildings, trees, mailboxes, fences, pool, septic tank, well, driveway and sidewalk locations and other structures and improvements proposed to be constructed on the lot.

The Committee may disapprove a plan for lack of artistic style or aesthetic quality. For example, the Committee may disapprove a plan because it is too square or "box like", because the roof is too flat, because of color scheme, or for any other reason that the Committee in its sole discretion, may deem appropriate.
